General Setup Instructions

- Read entire setup instruction manual prior to unpacking parts and pieces.

- The setup instructions are created specifically for this configuration.

- Setup instructions are laid out sequentially in steps, including exploded views with detailed explanation for assembly.

Cleaning & Packing

- For Cleaning Metal, Plex, & Laminate Parts: Use a **MILD NON-ABRASIVE** cleanser and soft cloth/paper towel to clean all surfaces.

- Keep exhibit components away from heat and prolonged sun exposure. **Heat and UV exposure will warp and fade components.**

- Retain all provided Packing Materials. All provided packing materials are for ease of repacking & component protection.

Part Identification - Numbering

Engaged Lock

WARNING

DO NOT USE POWER TOOLS

ALL CONNECTIONS MUST BE TIGHTLY SECURED

Disassembly

- For loss prevention, keep all knobs & connectors attached to extrusions during disassembly.

www.classicexhibits.com

Straight Connection

When assembling frame, first attach all straight connectors, then attach corner connectors.

1) Place extrusions end-to-end.

2) Loosen all knobs, then slide straight connector across the seam of extrusions.

3) Tighten all knobs to secure connection.

Straight Connector

Slide connector across seam of extrusions. Tighten all knobs.

Disassembly

1) Loosen all knobs.

2) Slide connectors off of one extrusion.

3) Tighten knobs to prevent loss during packing & shipping.

Keep straight connectors in groove of extrusion. Do not remove connectors during disassembly.

All knobs must be tightened securely to ensure a proper connection.

Corner Connection

1) Loosen knobs, then slide vertical extrusions onto corner connectors of **lower** horizontal extrusion.

2) Slide corner connectors of **upper** horizontal extrusion into grooves of vertical extrusions.

3) Tighten all knobs to secure connection.

Disassembly

1) Loosen knobs on vertical extrusions.

2) Slide the vertical extrusions off of corner connectors on lower and upper horizontal extrusions.

Upper Horizontal Extrusion

Corner Connector

Corner Connector

Slide verticals over lower connectors.

Then slide upper connectors into groove of verticals.

Tighten all knobs.

Corner Connector

Corner Connector

Lower Horizontal Extrusion

Adjust connectors if necessary to prevent gaps in connection.

COMPLETED ASSEMBLY

TSP49 Profile

All knobs must be tightened securely to ensure a proper connection.

10	1	36.5"w TSP49 Horizontal Extrusion
13	2	6" x 22" Base Plate w/ flange

Steps:

Refer to the Tool-less Frame Assembly general information page.

1) Assemble vertical extrusions [1-2], [3-4] & horizontals [5-6-7], [8-9-10] together, using Tool-less Spline Connector labeled [X]. *Note: Hanging clips on horizontals must face back of frame.*

2) Connect vertical assemblies [1/2], [3/4] between horizontal assemblies [5/6/7], [8/9/10], using Tool-less Corner Connectors labeled [A].

3) Install Base Plates [13] & [14] to bottom corners of frame assembly as shown. See Base Plate Attachment detail.
When assembled

Assemble frame flat on ground.

✱ Tool-less Spline Connector

1. Place extrusions end-to-end.

2. Slide tool-less connectors across seam of extrusions.

3. Tighten all knobs to secure connection.

✱ Tool-less Corner Connector

1. Slide extrusion onto Corner Connector.

2. Tighten all knobs to secure connection.

Keep corner connectors attached to horizontal extrusions.
✱ Hanging Clips

Keep all clips attached to extrusions.
DO NOT DISASSEMBLE

Hanging clips are attached to horizontal extrusions using V4 connectors at locations shown.

--	2	38"w x 86"h Lattice Light Curtain
When assembled

Steps:
1) Install center Lattice Light curtain to back of frame.
2) Assemble vertical extrusions [11-12] together, using Tool-less Spline Connector labeled [X].
3) Connect vertical assembly [11/12] between S10 extrusions on lower & upper clips of frame, using Connection Lock w/ Knob.
4) Install remaining Lattice Light curtains to back of frame.
5) Connect power cords to lights as shown.

Light Blocker Attachment

① Assemble top & bottom rods.

Shock Cord Connection
**②** Insert rods through top & bottom pockets of light blocker.

③ Lift up light blocker. Hook top rod over upper clips, then hook bottom rod over lower clips.

SEG Graphic Installation

Corner A   Corner B

Corner D   Corner C

It is important to first insert graphic into each alternate corner, then to the sides of the frame. If this is not done, graphic will not fit into the frame correctly.

Step 1
Insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

Step 2
Repeat Step 1 for opposite corner C, then insert corner B, followed by corner D, to complete the installation of the corners.
Step 3
Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.
Graphic Removal

To remove the graphic from the frame, locate the fabric pull tab. Gently pull up on the tab to remove the fabric.

Steps:
1) Apply SEG Graphic to front of assembled frame.
